

# PROJECT > Newport Bridge Rehabilitation

Rapid Road Repair  
Newport, RI

## PROJECT DESCRIPTION:

QUIKRETE® Rapid Road Repair (No. 1242) was used for full depth and partial depth deck repairs on the Pell Bridge Rehabilitation Project. Rapid Road Repair is a alkali-resistant, fiberglass reinforced, structural repair mortar designed to achieve 3000 psi @ one hour and more than 8000 psi @ 28 days. Rapid Road Repair also exhibits exceptional flexural strength needed for durable deck repairs.

The material was extended with 25 lbs of Pea Gravel per bag for full depth (24") repairs.
