

PROJECT > Worthing Place

2-Coat Stucco Over Poured Concrete and Concrete Block
Delray Beach, Florida

PROJECT DESCRIPTION:

QUIKRETE® Base Coat Stucco was used as the base coat and texture coat on the 500,000 sq. ft. 6-story Worthing Place, mixed residential-commercial use project.

QUIKRETE® Base Coat Stucco was trowel applied at 5/8" thick over the concrete block and 1/2" thick over poured concrete substrates. Concrete bonding adhesive was used on all dense concrete surfaces prior to the application of the base coat to improve adhesion.
