QUIKRETE® RENOVATES TOWN HALL IN SPANISH COLONIAL STYLE
15,000 Square-Feet of Stucco Applied on Largest Public Works Project in Highland Park

HIGHLAND PARK, Texas (July 7, 2014) – Originally built in 1924, Highland Park Town Hall was recently renovated to maximize its functional space and enhance the experience for visitors while maintaining the building’s original Spanish Colonial style. Ronzani, Inc. dba RONPARCO selected QUIKRETE® Base Coat Stucco – Pump Grade to assure the new stucco cladding would consistently deliver the desired textured-look of traditional Spanish Colonial architecture.

The largest public works project in the history of this affluent Dallas suburb, renovations included improvements to the jail, library, plaza, mayor’s office and other interior space all within the structure’s existing footprint. The exterior restoration was especially challenging because the nearly 100-year-old clay brick veneer walls were coated with a heavy dash stucco finish. After carefully removing the old stucco and thoroughly cleaning the surface to facilitate a strong bond, Ronzani, Inc. dba RONPARCO spray-applied more than 15,000 square-feet of QUIKRETE® Base Coat Stucco – Pump Grade directly over the clay brick veneer walls up to 1” thick. In addition, each scratch and brown coat cured 10 days between applications to further maximize the bond between the stucco and walls. More than 400 80-pound bags of QUIKRETE® Base Coat Stucco – Pump Grade was used on the project. Highland Park Town Hall reopened June 5, 2014 on its 90th anniversary.

QUIKRETE® commercial-grade materials have been used on many high-profile, landmark building and refurbishing projects like the Georgia Aquarium, Frank Lloyd Wright House, National Museum of the American Indian, Georgia World Congress Center, George W. Bush Presidential Center, San Francisco Bay Bridge, Alcatraz Island, and Bill and Melinda Gates Foundation. More information on QUIKRETE® products and projects as well as access to home improvement how-to videos are available at www.quikrete.com, [Facebook](#), [Twitter](#), [Pinterest](#) and [YouTube](#).
